INVITATION TO CONSIGN VARIOUS MEDICAL SUPPLIES

The Western Visayas Medical Center Consignment Committee (WVMC-CC) now invites eligible Consignors to submit consignment offers for the consignment of various medical supplies.

Quotation Number: **CMS-ITC-2019-002**

Specification: See attached Quotation Form

Deadline of submission: On or before **August 14, 2019, 10:00 AM** – location; Consignment Committee Office (Divine Mercy Building)

Opening Date and Pre-award Conference: **August 15, 2019, 1:30PM** – location; Anesthesia Office
(Attendance of Consignor is encouraged)

Eligibility Requirements for Consignment:

A. Technical Components

(Submit the updated copy of the following documents in **three (3) sets**):

- Secretary's Certificate -A document that is signed and sealed by the secretary of the corporation/ company which states that the Board of Directors (BOD)/ Company President has delegated authority to a specific individual;
- Company Profile -A concise description of the company;
- Securities and Exchange Commission (SEC) Registration certificate for corporation/ partnership or Department of Trade and Industry (DTI) permit for sole proprietorship;
- Business/ Mayor's Permit from the local government;
- Omnibus Sworn Statement (9 Statements; duly notarized);
 - Certificate of Product Registration (CPR) issued by the Philippine Food and Drug Administration (PFDA);
 - Identify the product codes in the CPR in line with the project the company is joining.
 - **Write the Item Number per Invitation to Consign (ITC) on the upper right part of the CPR. eg. Item No. 1 Oxygenator RX15R30**
- Audited Financial Statement duly stamped and received by the Bureau of Internal Revenue (BIR);
- Tax Clearance Certificate (for Consignment);
- Certificate of Exclusive Distributorship (CED); and
- License to Operate (LTO);
- Other documents that the Consignment Committee (CC) may require.

QUOTATION NO. CMS-ITC-2019-002
PRICE OFFER - MEDICAL SUPPLIES FOR CONSIGNMENT

ITEM	COMPLETE DESCRIPTION/SPECIFICATION OF ITEMS	ESTIMATED QUANTITY	UNIT	PRICE OFFER
1	Atriostomy Catheter, Size Fr 5: Dual lumen shaft, Radiopaque Catheter body & Balloon Image Marker, Micro-Thin Non-Compliant Balloon, Balloon diameter 13.5 mm, usable length 50 cm, max volume 2 cc	As Needed	All Sizes	
2	Percutaneous Transluminal Valvuloplasty Catheter : Coaxially constructed catheter with a distally mounted non-compliant balloon, Super Thin Balloon, Maximum Trackability, Radiopaque marker	As Needed	All Sizes	
3	Single-lumen catheter set for pediatrics and neonatology according to the Seldinger method Set consists of: Seldinger needle; Kink-proof guide-wire with flexible J-tip; Single-lumen catheter 22 G (Made of PUR, Soft catheter tip, Length markings for accurate catheter placement, X-ray detectable, opaque, Secure fixation with transparent wing fitting; Soft, self adhesive catheter fixation), Accessories: Infusion extension line, three-way stopcock, sterile blade)	As needed	LOT	
4	Triple-lumen catheter set for catheterization of the vena cava according to the Seldinger method Set consists of: Seldinger needle; Kink-proof guide-wire with flexible J-tip; Luer-Lock syringe, 5 mL; Scalpel; Dilator; Triple-lumen catheter 20/22/22 G (Made of PUR, Soft catheter tip, X-ray detectable, opaque, Three lumens: distal = 20G, middle = 22G, prox = 22G; Length markings for accurate catheter placement, Color-coded Luer lock fittings with valves; fixation wing at the channel junction for securing of the catheter; Protruding, adjustable fixation wing for stitch fixation at the puncture site)	As needed	LOT	
5	Single-lumen catheter set for catheterization of the vena cava according to the catheter-through-cannula technique Set consists of: Introducer cannula; Single-lumen catheter (made of polyethylene, X-ray detectable, opaque, Luer-lock fitting, X-ray detectable stylet, Catheter brake), Protective catheter sheath	As needed	LOT	
6	Image intensifier covers and bags (PE transparent cover; with elastic or string fixation)	As needed	LOT	
7	Single Channel Disposable Pressure Transducer Set Consist of : 1 piece Disposable Pressure Transducer, 1 piece 152 cm Single IV set, 1 piece Flush device 3cc/h, 1 piece 120 cm Pressure Tubing with M/F Connector, 1 piece 30 cm Pressure Tubing with M/F Connector, 2 pieces 3-way Stopcock, 2 pieces Male Non-Vented Cap)	As needed	LOT	
8	Latex free Pressure Infusion Bag with hook 1000cc (Dedicated fluid bag hook; Pressure relief valve that prevents over inflation (330 mmHg pressure relief); Large, oval shaped bulb that allows for quick and easy inflation of bladder; Single-handed inflation and deflation design; Color-coded gauge for accurate pressure monitoring (0-300 mmHg); three-way stopcock that ensures precise control of pressure; Reliable-100% tested; loads quickly and easily	As needed	LOT	
9	Double-lumen catheter set for catheterization of the vena cava according to the Seldinger method Set consists of : Valve needle; Seldinger needle; kink-proof guide-wire with flexible J-tip; Luer-Lock syringe, 5mL; scalpel; Dilator; Double-lumen catheter 16/16 G (made of PUR, Outer diameter 7F, Soft catheter tip, X-ray detectable, opaque; Two lumens: distal=16G;proximal=16G; with valves, ; Length markings for accurate catheter placement; Color-coded lock fittings; Fixation wing at the channel junction for securing of catheter; protruding, adjustable fixation wing for stitch fixation at the puncture site)	As needed	LOT
